Pure Yoga West

There are an infinite number of **yoga studios** in New York City, but which is the best? Is it possible to pick? Do cult favorites like **Yoga to the People**, **Pure Yoga**, and **Bikram Yoga** reign supreme over newcomers like **Lyons Den Power Yoga**—or is it the other way around?

After the jump, cast your vote for which studio is the greatest of them all. There are nine contenders, all of which specialize in the practice (meaning gyms and other boutique studios that offer yoga among other classes were excluded). And companies with multiple locations are just listed under their name.

**Update:** We have a winner—**Lyons Den Power Yoga!**
